Requests and Suggestions

Missing something? In case you have any requests or suggestions for additional decals for this library, you may create an issue with the "request" label in our GitHub repository, or ping our team in the TSC discord with your request. If possible, please include appropriate reference material for the decal you want represented.

Usage Rights

You may utilise the files in this repository for your own train liveries. However, while doing so, you must follow the following rules unless disclosed in a prior agreement.

1. Do not use the files without crediting us (ilo sama RAIL)
2. Do not use the files outside of train simulators
3. Do not use the files commercially

Known Issues

Fonts in DB WLS decals

The fonts in our DB WLS decals are inaccurate due to the real font (DB WLS) not being available. For now, as a replacement, we are using Nimbus Sans L, a free alternative to Helvetica. We may attempt to recreate DB WLS in the future, though we cannot confirm anything quite yet.

Naming Scheme

Suffixes

Suffix	Explanation
_NBG	No background
_NBGw	White only
_NBO	No border
_n / _o	New/old
_v#	Variant #
